12 - Read the following Passage and then answer the questions?

No Pain No Gain

Human knowledge develops with scientists' hard work. Many great men and women try hard to find facts, solve problems

and invent things.

Some of these scientists did not have easy lives. But they tried hard when they were working on problems. They never felt weak when they were studying. They never gave up when they were doing research.

There are great stories about scientists and their lives. One such a story is about Thomas Edison. As a young boy, Edison was very interested in science. He was very energetic and always asked questions. Sadly, young Edison lost his hearing at the age of 12. He did not attend school and learned science by reading books in the library himself. When he grew up he worked in different places, but he never lost his interest for making things. Edison was famous for doing thousands of experiments to find answers to problems. He said, "I never quit until

I get what I'm after". Edison had more than 1,000 inventions and was very successful at the end of his life. Many great names had stories like this. But the key to their success is their hard work and belief in themselves. If you want to get what you want, work hard and never give up.

الف) Where did Edison learn science?

- a) In the library      b) At school      c) In the laboratory

ب) How did Edison find answers to problems?

- a) By sleeping in the laboratory  
b) By doing many experiments  
c) By quitting what he was after

پ) Which is not true about scientists?

- a) They find facts  
b) They invent things  
c) They feel weak

ت) True/False

- . Edison finally lost his interest for inventing things (1)  
. Edison did not attend school at all (2)  
. Hard work is the key to scientists' success (3)

ث) Match two halves

1. After Edison lost his hearing .....
2. When scientists were working on problems .....
3. If you like to be successful .....

- a. you must not feel weak.  
b. he did not quit studying.  
c. they did not give up.  
d. he became a famous person.

13 - Read the following Passage and then answer the questions?

Who is a scientist?

The world is full of amazing things. Knowing this beautiful world is very interesting for humans. One group of people who study the world are scientists. A scientist studies nature, animals, or people. Scientists work hard and do research to solve problems, find facts or invent new things. Scientists learn about the world by observing and experimenting.

There are different types of scientists. Some of them study plants, earth, seas, or animals. Others study people and how they behave and learn. Some scientists like to study history or languages. Others are interested in making new things. They want

to make people's lives easier.

Some scientists become very famous and rich. Many people around the world may remember their names and faces. But this is not what they call 'success'. They feel successful when they solve problems and find answers to their questions.

(الف) True or false

- 1) only scientists like to study the world.
- 2) There are different types of scientists.
- 3) Scientists think 'success' means becoming rich.

ب) How do scientists learn about the world?

پ) What does an inventor do?
