Yet another important thing is our heritage and culture. We have much to learn from our parents regarding our heritage, to be proud of our past. This heritage and history brings a sense of belonging. Most importantly, it brings us a sense of identity of our past and the responsibility to protect it for our future generations. What I can add at the end is the role of our parents' morals, values, and principles in our lives. Our elders have either learned, created or have been brought up with a set of morals, values and principles in their lives. Our elders want the best for us and they are willing to tell us what set of rules and guidelines have made them successful, and hopefully, peaceful.

Questions;

21. How can we proud of our past?
22. Which one is **not** mentioned in the text?
 - a) The importance of our heritage and culture.
 - b) Knowing about the experience of our elders.
 - c) Protect our heritage for next generation.
 - d) Our elders have learned and brought up with a set of morals and principals.
23. Generate a question about main idea.

A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin '**dictio**' ('saying').

There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words.

A complete dictionary also tells you about the origin of words and the story behind them. For example, the words like 'pajamas', 'bazaar' and 'paradise' entered English from Persian.

Questions;

24. Why we find words in a dictionary easily?
25. What is the origin of the word "dictionary"?
26. What are technical dictionaries?
27. Biography dictionaries translate words from one language to another. True ☐ False ☐
28. The word "bazaar" is not English, originally. True ☐ False ☐
